

# *One More Road*

words & music by  
John Dandrea, 10/2019

verse 1      it's just, one more road  
for this rig, another heavy load  
there's always one more mile  
beckoning me with your smile -

verse 2      driving in all-day rain  
they say it's another hurricane  
there's just one thing I wanna do  
is end up safely back to you

chorus      just one more road - one more mile - one more heavy load  
just you and me - up ahead - is all I see

verse 3      it's just, one more day  
and I'll make it safely back to you, I pray  
and you know I hate to make you wait  
but I know I'd better take a break -

chorus      just one more road - one more mile - one more heavy load  
just you and me - up ahead - is all I see

just one more road - one more mile - one more heavy load  
just you and me - up ahead - is all I see  
one more road . . . . .
